

IS YOUR MOUTH PUTTING YOUR BODY AT RISK?

Evidence shows that 5 high risk oral pathogens are causative drivers of inflammation and disease.

DIRECT
DIAGNOSTICS

Aa

Aggregatibacter actinomycetemcomitans

- Heart Disease • Ischemic Stroke • Alzheimer's • Dementia
- Brain Abscesses • Aneurysm • Alters Immune Response • Arterial Plaque
- Oxidative Stress • Pregnancy Complications • Bone Loss
- Increases Dental Decay • Periodontal Disease • Implant Failure

Pg

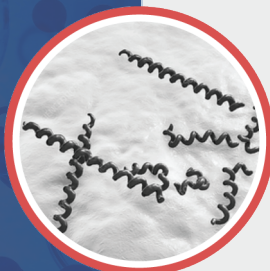

Porphyromonas gingivalis

- Heart Attack • Ischemic Stroke • Arterial Plaque • Pregnancy Complications
- Cancer • Alters Immune Response • Aneurysm • Alzheimer's • Dementia
- Diabetes • Rheumatoid Arthritis • Obesity • Oxidative Stress • Appendicitis
- Multiple Sclerosis • Periodontal Disease • Implant Failure

13.6x increased risk of a cardiac event • Accelerates the growth of T Cells and all cancer cells!

Td

Treponema denticola

- Cardiovascular Disease • Arterial Plaque • Alzheimer's
- Joint Replacement • Oxidative Stress • Aneurysm • Diabetes • Dementia
- Cancer • Stroke • Implant Failure • Periodontal Disease

FEEDS OFF STRESS!

Tf

Tannerella forsythia

- Alzheimer's • Dementia • Arterial Plaque • Heart Disease
- Pregnancy Complications • Diabetes • Joint Replacement • Cancer
- Aneurysm • Oxidative Stress • Stroke • Implant Failure
- Periodontal Disease

Fn

Fusobacterium nucleatum

- Pregnancy Complications • Cancer • Arterial Plaque • Alzheimer's
- Dementia • Alters Immune Response • Intestinal Complications
- Heart Disease • Arthritis • Implant Failure • Periodontal Disease

• Allows Pg and other high risk bacteria to enter the artery wall • "The Gatekeeper" and "The Great Enabler"
